

FORCE USA FOLDING MYRACK POWER RACK

SKU: F-MR-FOLDING

PRODUCT DESCRIPTION

INNOVATIVE SPACE SAVING DESIGN SETS UP IN LESS THAN 10 SECONDS!

You want a power rack that is **Space Saving, Versatile**, and **Customizable**? Introducing the innovative Force USA MyRack Folding Power Rack System.

Why settle for an off-the-shelf power rack when you can have one that folds to save space when not in use and is also custom-built just for you?

The First Full Folding Power Rack of Its Kind

Unlike competing folding half racks, our patented full rack design doesn't need to mount to a wall, offers more interior working space, and holds twice the weight.

The Folding MyRack can be used to perform squats, bench presses, overhead presses, deadlifts, and more.

Why Choose the Folding MyRack?

- **Convenience** – Innovative fold-away design for tight spaces.
- **Speed** – Lightning-fast set-up time with pop-pin technology.
- **Stability** – Industrial-strength construction to maximize safety.
- **Durability** – Backed by a lifetime structural warranty.
- **Capacity** – The base unit is rated to hold up to 2,000 lbs!
- **Customizable** – Choose from 10 separate attachments.
- **Versatility** – Perform over 50 different exercise variations.

Whether you train weightlifting, powerlifting, Crossfit®, Olympic lifting, calisthenics, gymnastics or just want to build muscle or burn fat, the Folding MyRack is 100% customizable so you can take your workout to the next level.

Start with the bulletproof Folding MyRack base unit forged with precision welded, laser cut 12 gauge steel.

The Folding MyRack features westside spacing with 54 different numbered adjustment points to perfectly position any size user for bench press, squats and more. The lower bench level heights have 1-inch spacing while the squat height levels have 2-inch spacing.
