

# T-CFIB COMMERCIAL FLAT TO INCLINE BENCH

SKU: T-CFIB

PRODUCT  
DESCRIPTION

Looking for a bench that has the quality your gym needs without breaking the bank? The T-CFIB Commercial Adjustable FID bench does just that. Boasting an overall product weight of nearly 43kg this bench does it all and can hold 450kg of weight. The bench goes incline and flat. Both the seat cushion and back rest adjust for your perfect positioning. The bench comes with 11 gauge steel and 2x3 tubing on the frame. It has a handle on the bench with wheels to easily move the bench around your space. Perfect for dumbbell workouts, bench pressing, smith machine exercises, at an extremely affordable value.

Features

- Independent back and seat pad adjustments
  - handle and wheels for easy movement
