OVICX Q200

OVICX Q200 stationary bike
Combined the magnetic resistance with poly-v belt delivers a smooth and quiet workout. Adopt integrated professional handlebar, achieve the riding experience in different postures. The spinning bike comes with many customizable settings. Fully adjustable seat and handlebar, LCD monitor and water bottle holder provide cyclists a comfortable riding training.

- Spinning bikes can exercise body parts such as thighs, abdomen, buttocks, and lose excess fat.
- The compact design covers an area of about 7ft², and the height of the seat cushion and armrests can be adjusted to meet professional training without taking up your space.

OVICX

OVICX technology is committed to providing the professional home fitness equipments and helps bulid healthier bodies. Clients' satisfaction is the first priority.

- Net weight 37.2kg
- Size: 103 x 57 x 131cm
- Max Weight Capacity: 110kg

Magnetic Resistance

An unbelievable stable and quiet training is achieved with the combination of magnetic control and belt transmission. Zero-contact magnetic control protects the knee well by equaling the force bearing area while using exercise bike.

Fully Covered Design

The fully covered body prevents sweat from entering and corroding the core components. It also makes it safer for home with kids.

Adjustable Seat

Adjustable seat on spin bike comes with numbering, which is easy for recording the position and suitable for multiple users.

LCD Monitor

LCD display tracks the distance, speed, time, calories consumption.

Professional Handlebar

Professional integrated handles, which is durable, non-skid and simulate real riding situation.

Transport Wheels

100% Intensity Workout

Wheels equipped on the Indoor cycling Bike, which is convenient for moving. Simply tilt and roll out for use or away for storage.

Infinity adjustable resistance control imitates real riding situation, satisfying all kinds of resistance demand.
