

PROFORM TRAINER 12.0 TREADMILL (DISPLAY SET)

PRO-FORM

SKU: PFTL99721-INT

Experience Personal Training in Your Living Room

Take your training to the next level with an iFit membership on the Trainer 12.0 treadmill. Engage in a whole new workout experience as streamed personal trainers lead you in studio classes and take you all around the world, automatically controlling your treadmill's speed and incline to give you a unique, hands-free workout.

Discover the Trainer-Led Workouts

Our trainers can control your treadmill's speed and incline.

Discover Comfort

Step Down for a Soft Landing

We know your landing space should help you work out longer and more comfortably. The roomy, 51 x 140cm deck is built with ISO Flex™ cushioning, which is designed to give your legs a landing surface with more give so you can exercise with more comfort.

Keep It Cool

This treadmill is going to make you sweat. That doesn't mean you need to be uncomfortable too! The built-in CoolAire™ fan gives you three levels of breeze to keep you feeling good throughout your most challenging workouts.

Perfect for the Home

From Couch to 5K—All in the Same Room

The best training comes from following someone who knows what they're doing. And what better place to work out than inside your home? With interactive personal training and a machine that's designed for your home, an iFit membership brings knowledge and convenience to the Carbon T10.

Maximize Your Space

We know it can be difficult to create space for a home gym, so we designed the Trainer 12.0 with SpaceSaver® Design, which means you can conveniently fold the deck up and out of the way. And with EasyLift™ Assist, you can use the built-in, powerful shock to help you lift the deck with an easy push.

Smart and Beautiful

10" of Swipeable High Definition

The best training comes from following someone who knows what they're doing. And what better place to work out than inside your home? With interactive personal training and a machine that's designed for your home, an iFit membership brings knowledge and convenience to the Trainer 12.0.
