Product Description

The original Deck established itself as the perfect all-in-one tool for step, circuits, BODYPUMP and bootcamps.

Stepping is now more varied, fun and challenging with specific targets to hit. The entire length of the platform is used for even more exercise options. Anatomic hot spots ensure users have their hands and feet in the right place for every repetition.

DESIGN.

The Aerobic Stepper features target zones for even more programming options for stepping and BODYPUMP sessions. Integrated storage means that users can quickly access handweights or resistance bands for fast-paced group training and as a weight bench you can choose between 30°, 45° and 70° angles.

TECH SPEC.

Anti-slip rubber top surface features intelligent grip to give users total confidence during fast-paced workouts, with more aggressive tread for feet, and softer tread for hands. The adjustable back rest is supported by strong steel tubing for extra strength and user confidence during weight training.

FUNCTIONS.

- Flat to Incline Bench
 - Stepper
- Bands workout (resistance bands included)
- Two level height adjustment - 20 & 35 cm
