

VIGOR FOLDING ADJUSTABLE SQUAT STAND AND MULTI ADJUSTABLE BENCH (GOOD CONDITION)

SKU: C-VR-FASS

PRODUCT DESCRIPTION

Both were previously used in a photoshoot and are considered quite new. Free Assembly Provided.

SPACE SAVING DESIGN

Foldable design allows the squat stand to be stored in a compact manner after every workout. It takes less than 1 minute to fold or unfold.

Storage Dimension: 51.5 x 82 x 106cm (L x W x H)

SOLID AND STABLE

Although the squat stand is foldable, it is very stable when in use, due to the well-designed tightening knobs and solid materials.

PADDED J HOOKS AND SAFETIES

J Hooks and Safety Catches are padded with nylon plates to protect the knurling of the barbell. Additionally, it prevents direct metal to metal contact which will also damage the coating of the squat stand.

BARBELL LOCKS

The problem with having narrow width squat stand is that while loading weights on the barbell, it is very easy to topple due to the imbalance of weights on one side. The barbell lock solves this problem by locking the barbell to the J hook so that the user can safely load all the weights without having to worry about the imbalance.

EXTRA LONG SAFETY CATCHES

Safety catches are 44cm long, much longer than similar size squat rack in the market. No more worries about failing when working out alone.

EASY ADJUSTMENTS

Quick and easy pop pin height adjustments.

ADJUSTABLE HEIGHT SUITABLE FOR MOST EXERCISES

This squat stand provides lower height settings as compared to many other models in the market. The benefit of lower height means that even decline bench press is possible with this rack. Other exercises that can be performed include Flat bench press, Incline bench press, squats, shoulder press, standing military press, barbell row.

STORAGE OPTIONS

Keep your workout neat and tidy with 2 weight holders, and a barbell holder which is suitable for both normal and olympic barbell.

VARIOUS HEIGHT AND WIDTH ADJUSTMENT

- J Hook: 94.5cm to 164cm (~5.4cm increment)
- Safety Catch: 51cm to 74.5cm (~5.4cm increment)
 - Width: 82 to 124cm (~6cm increment)
 - Depth: 89cm (unfold), 51.5cm (folded)

Still undecided? Here are 5 reasons to get it now!

1. Solid and stable although it is compact
2. Fits all bar width
3. Fits all bench position (decline, flat, incline)
4. Narrow adjustment points (better range of motion)
5. Storage for weights and bar

ADDITIONAL INFORMATION
