DESCRIPTION

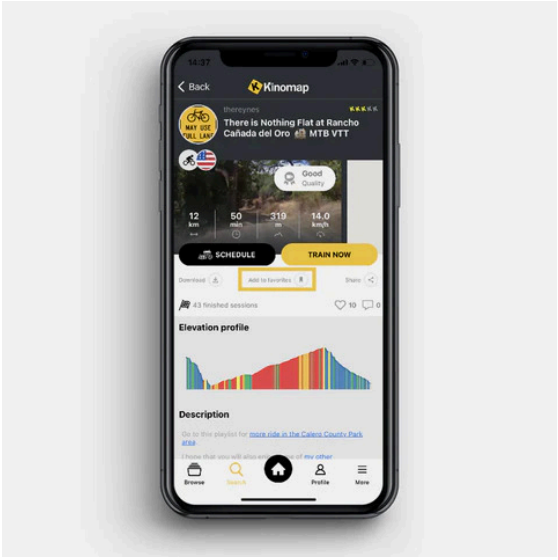
KEY FEATURES

DESIGNED FOR COMFORT

The Freeform UB5 is built with high-quality components to ensure maximum comfort while you ride. The UB5 seat is fitted with thick foam padding and upholstered in commercial vinyl with rip-stop mesh backing to help prevent rips and tears.

COMPLETE WORKOUT CONTROL

Enjoy complete control over your workout with 32 levels of electromagnetic resistance to suit your fitness level. The Freeform UB5 is designed for optimum tension for all types of workouts, be it maximising cardio benefit or challenging your endurance.



BLUETOOTH CONNECTIVITY

Use the Bluetooth connectivity to join a global community as you ride with the Kinomap or iConsole app, which allows you to ride along with live-action videos from around the globe.

STAY ENTERTAINED WHILE YOU TRAIN

Enjoy your workout while keeping up-to-date with your favourite tv shows, movies and programs. Simply place your tablet, phone or handheld device on the adjustable built-in stand. The entertainment support allows you to position and secures your phone or tablet to the console, ensuring an optimal view from your riding position.

HEART RATE PULSE SENSORS

Reach your goals quickly by optimising your training with the in-built heart rate monitor. With dedicated heart rate training, you'll always be in your prime workout zone.

ADJUSTABLE AND EASY-TO-MOVE

Quickly and easily adjust the seat to suit almost any user height by moving up, down, forward and backward, with the 4-way micro-adjust technology. The front in-built transport wheels make it easy to move your Freeform Upright Bike around your home or gym so you can train where you want when you want.
