

FREEFORM CARDIO RB7 RECUMBENT BIKE

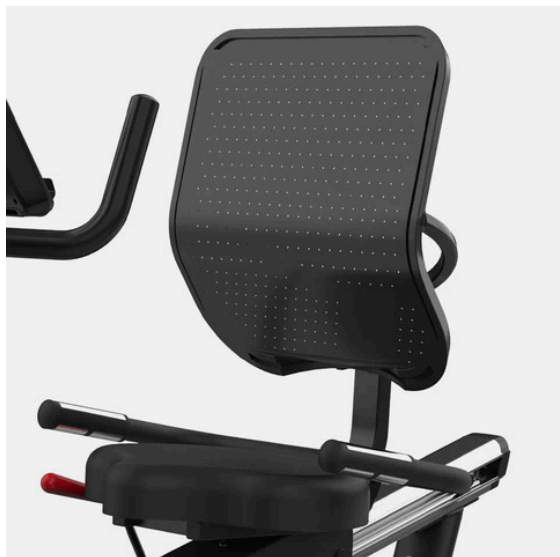

SKU: FF-RB7

KEY FEATURES

DESIGNED FOR COMFORT

Stay cool and comfortable when you work out with our ergonomic seat design. Designed with high-quality EVA foam padding, the RB7 seat will support your back fully and reduce pressure on your joints. Featuring a strong, mesh backrest for excellent airflow to keep you cool during tough workouts.

32 RESISTANCE LEVELS

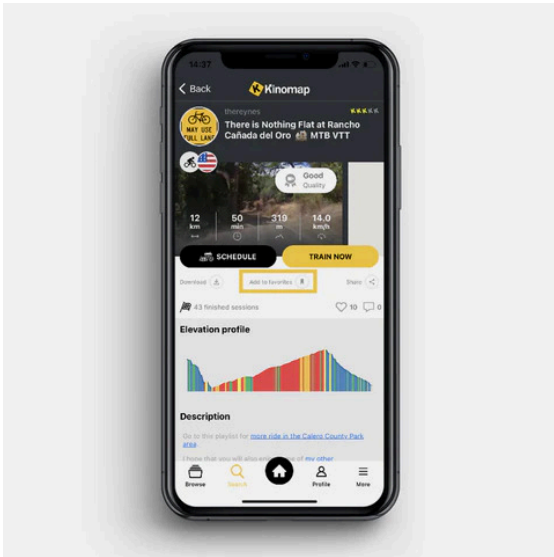

Get complete control over your workout with 32 adjustable modes of resistance to suit your fitness level. Equipped with a 9kg flywheel with a 3-piece forged crank system, the Freeform RB7 is designed for optimum tension and resistance for all types of workouts.

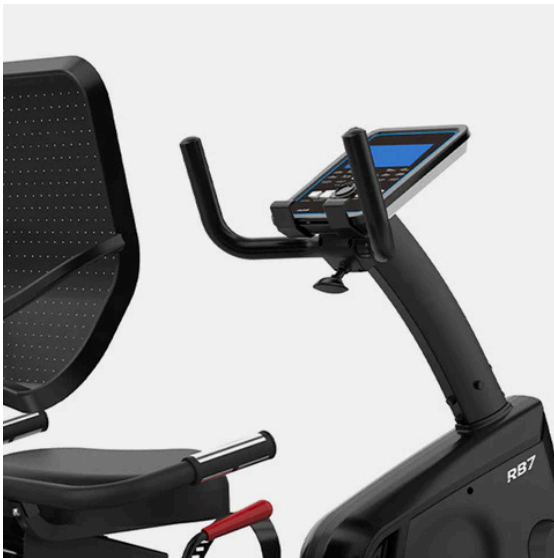

BLUETOOTH CONNECTIVITY

Keep every workout interesting with 12 preset training programs to give variation to your rides and maximise your training sessions so that you can rapidly reach your fitness goals. Use the Bluetooth connectivity to join a global community as you ride with the Kinomap or iConsole app which allows you to ride along with live-action videos from around the globe.

STAY ENTERTAINED WHILE YOU TRAIN

Enjoy your workout while keeping up-to-date with your favourite tv shows, movies and programs. Simply place your tablet, phone or handheld device on the built-in stand. The entertainment support allows you to position and secure your phone or tablet to the console, ensuring an optimal view from your riding position.

HEART RATE PULSE SENSORS

Reach your goals quickly by optimising your training with the in-built heart rate monitor. With dedicated heart rate training, you'll always be in your prime workout zone.
