-

### **BODYX CUBE**

The Folding Smith Machine, All-In-One Functional Trainer.

- The CUBE Folding Home Gym Smith Machine can transform from a depth of 120cm to as

The Smith Machines ideal for improving building muscle with a lower risk of injury. Fitted with safe lock and release mechanisms and a safety catch allowing you to max out your training without the need for a spotter.

little as 60cm

- Accessories: Handles for Cable Crossovers, Lat Pull Down Bar, Tricep Pulldown rope, Push Bar, Short bar, Ankle Strap
- Works well with the [DHT Ultraslim Folding Bench](#) in which the bench can be folded and stored within the machine together.

Key features:

- Steel aircraft cables, rated to 2,000 lbs
- 2 x 90kg weight stack
- Off-the-floor base

**This is a world first for Folding Home Gym Smith Machine. All-In-One Functional Trainer upgrade to the fitness Solution.**

**The smith machine**

**The pulleys**

**The stacks**

The CUBE utilizes high quality 25mm self-aligning linear bearings to achieve the smooth, secure movements a smith machine needs. Change weights easily with the built in weight stack.

Dual, heavy duty swivel pulleys on the front rack form an essential component of this machine. A fixing point for the many attachments included with the CUBE, there is little you cannot perform with this cable system.

2 x 90kg precision cut steel weight stacks allow the user to increase strength over time with 20 weight increments. These easy to access, pin select weight stacks add ease for quick-changing supersets, multiple users and much more.
