The perfect partner
for your treadmill

PRODUCT DESCRIPTION

JET 200 SERIES TREADMILL

Run from a solid 2.25 HP motor, the 18 kph max speed and 15 incline levels create challenging workouts for any ability. Featuring 30 motivational programmes, the 200's console helps boost your training with progressive workouts run after run. MP3 compatible with a built-in fan, the 200 offers all the tools for top performance and comfort.

Compatible with the Reebok Fitness App

2.5 HP Motor - 18 KPH Max. Speed

5 Window LED + Profile Chart

15 Power Incline Levels

Quick Speed & Incline Keys

Air Motion Cushioning

MP3 Input with 5W Speakers

QUICK ADJUST CONTROLS

Quick adjustment buttons (speed/incline) are conveniently located at the handles for easy control of the treadmill.

15% INCLINE CONTROLS

Reduce impact on your joints and burn more calories with incline training. Take the deck up to 15 percent incline with just the touch of a button.

ANTI SLIP SIDE RAIL

Large anti slip foot pads prevent accident by allowing users to get out of the treadmill safely.

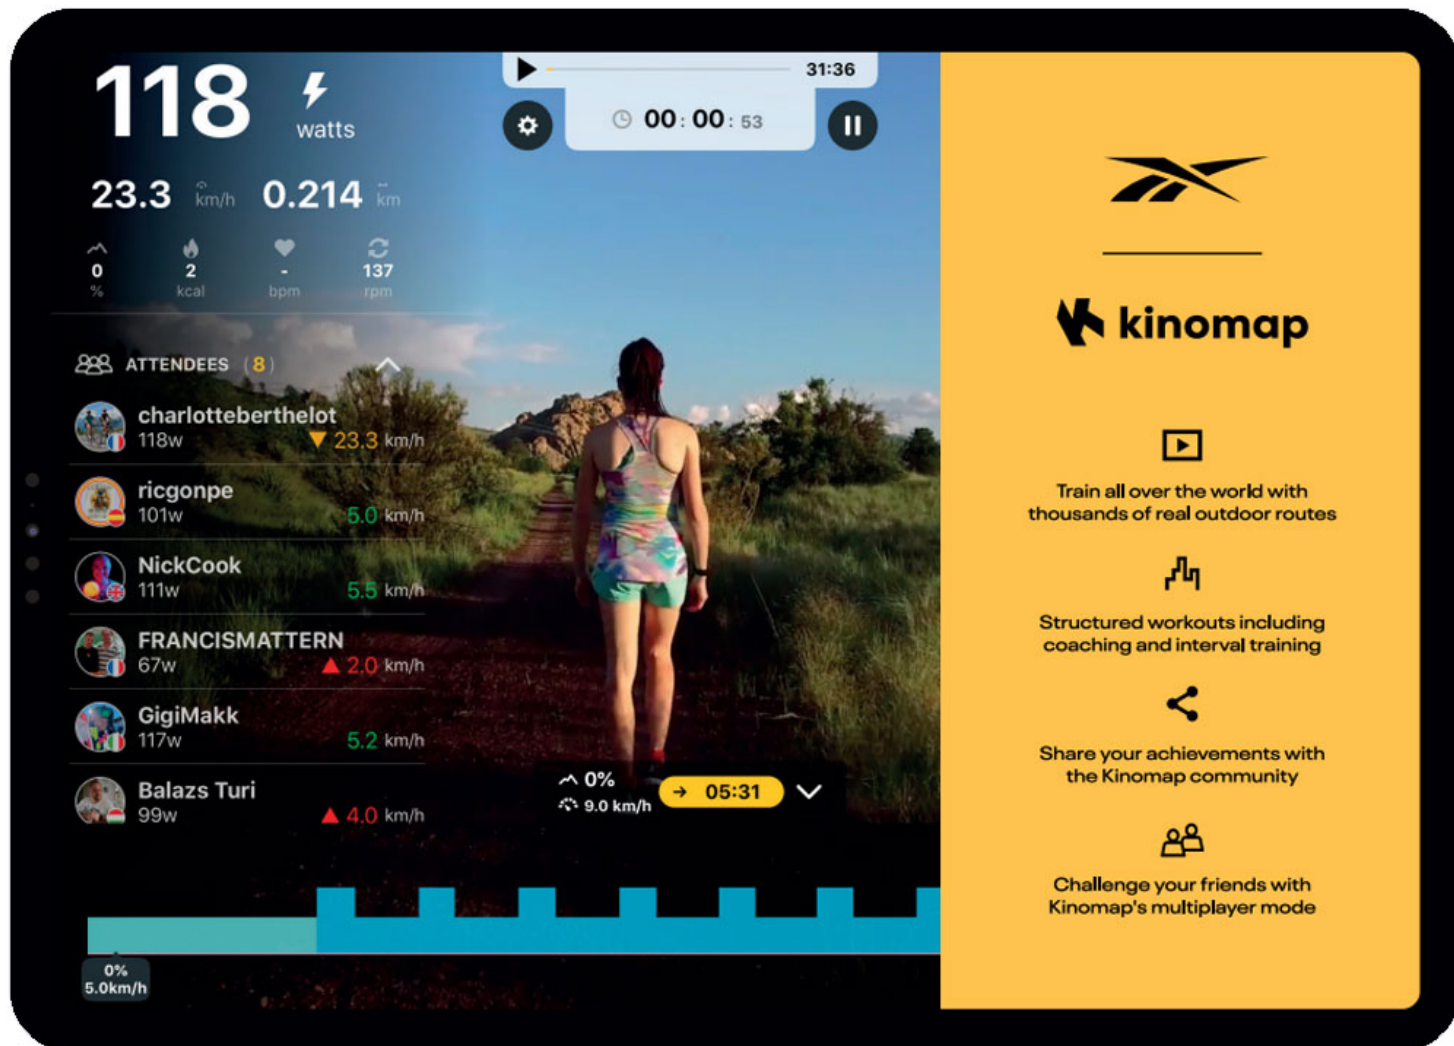

AIR MOTION CUSHIONING

Air Motion Cushioning Technology minimises wear on your joint by reducing the impact while running.

FOLDABLE

Soft drop hydraulic folding mechanism allows quick and easy space-saving storage.

BLUETOOTH ENABLED TECH

Kinomap compatible – run real-world routes, challenge your friends and analyse workouts.

Reebok App – track and monitor your training, recording key stats such as distance covered, calories burned and average pace for both live feedback and post-workout analysis.

Designed for stronger home cardio sessions, the Jet 200 Bluetooth Treadmill combines a powerful 2.25 HP motor with intelligent console technology. Delivering a speed range from 1 - 18 kph with 24 motivational pre-set workouts at your disposal, the intuitive console also features three target, three user-defined and three HRC programmes for you to create more effective runs. Fitted with quick speed and incline buttons plus easy shortcut keys, the 200 offers 15 levels of power incline to ramp up the intensity of your sessions.

Featuring a clear five-window LED screen + profile chart, you're able to track and control your runs to ensure more progressive training. Delivering speed, time, distance and calorie info, the control console also offers live heart rate data via the hand pulse sensors for safer and more informed training.

Combining the Reebok Console App with the Jet 200 opens a gateway to the global running community. Enabling Kinomap compatibility, unleash your inner explorer by running real-world routes, taking on challenges, and competing with friends.

Alongside offering a wide range of pre-set workouts, the Console App provides detailed training reports, syncs with selected health-tracking platforms, and logs each workout for valuable performance insights. You can even celebrate fitness milestones by sharing your achievements directly on social media.

Complete with 5W speakers and an adjustable cooling fan, the Jet 200 helps power each run with your favourite training playlists whilst keeping you cool as you push each session. The Jet 200 features a smartphone/tablet holder atop the console with an integrated media hub on the side; providing you with auxiliary and headphone ports plus a USB charging station to keep your workouts powered.

Featuring a large running deck that's suitable for all runners (140 x 46 cm), the Jet 200 treadmill offers Air Motion Cushioning Technology that transfers air between its eight cushioning pods to reduce the toll taken on your ankles and knees; helping to absorb the impact of each stride to create a smoother and more forgiving experience. Robustly built without compromising on style, the 200 offers a solid max. user weight of 120 kg - delivering assured and durable performance.

Simple to build with integrated transport wheels and floor level adjustment, the Jet 200 is ideal for use anywhere in the home. Also fitted with a soft-drop folding mechanism underneath the deck, you're able to simply fold away the treadmill post-workout for more compact and space-saving storage.
