

# STORM SERIES HYDRA ADJUSTABLE LEG EXTENSION SEATED CURL COMBO

SKU: W1507

PRODUCT DESCRIPTION

The **Hydra** features the Storm Series' classic 3-inch-by-3-inch uprights and adjustability options that transform the Hydra from a leg extension machine to a leg curl machine all while sitting down since the pull pins are easily within reach.

The lower leg roll features 18 points of adjustability including swivels and pivots, and the 2.5-inch-thick backrest slides forward and backward so that most athletes, regardless of their size and body type, can easily find a position that is most comfortable for them.

The Hydra's 300-pound weight stack offers ample resistance for advanced athletes but scales all the way down to 20 pounds to accommodate beginners. Such versatility and the quality of its materials make the Hydra perfectly-suited to the needs of full-use commercial fitness facilities, but its 45" by 52" footprint makes it ideal for home gym spaces.

**The Hydra boasts. . .**

- Leg-curl and leg-extension modes
- 3-inch-by-3-inch 11-gauge steel
- Chip-and-rust-resistant powder-black finish
- Tear-resistant and sweat-repellent upholstery
- Laser-etched BOLT insignias on the powder-black shroud
