

BOLT FITNESS OUTLAW ADJUSTABLE LEG PRESS HACK SQUAT COMBO

SKU: W1500

PRODUCT
DESCRIPTION

The Outlaw Adjustable Leg Press Hack Squat Combo combines three machines in one—leg press, hack squat, and calf raise—so you can train your entire lower body in one single unit. Its multi-functionality makes it an ideal solution for home gyms. Perfect for residential setups where space and versatility matter most.

It features an adjustable back pad that repositions for each movement—lower it for hack squats, raise it for leg presses, or add the calf block for calf raises—so you can flow between exercises without interrupting your momentum.

The oversized footplate (the largest in its class) offers five tilt settings that allow you to control foot placement and isolate your inner or outer quads with greater precision. Its heavy-duty steel frame delivers stability and ensures that you can lift heavy with confidence and long-term reliability.

Multiple backplate colors available to match your aesthetic.

Key Features

- Three stations: hack squat, leg press, and calf raise
 - Two diamond-print footplates
 - Adjustable back pad
 - Four precision block bearings
 - 3" x 3" frame
 - 7- and 11-gauge steel construction
