From long endurance-building rides to high-intensity challenges, take on engaging workouts and sprint towards your goals with the Reebok i-Bike.

Equipped with the Reebok Flow Flywheel that replicates the feel and intensity of an outdoor ride, the i-Bike stores your hard-earned kinetic energy and maintains your momentum. Providing a smoother motion with minimal noise and friction, the fixed flywheel's seamless rotations allow you to move through the pack with ease. Offering 12 engaging pre-set programmes and 32 electronic resistance levels, the i-Bike accommodates all training types as you race, climb and ride towards a new fitness peak.

Combining the Reebok Console App and i-Bike opens a gateway to the global cycling community. Immerse yourself in engaging virtual experiences as you connect with riders worldwide, challenge friends, and conquer iconic routes - all from the comfort of home. Offering seamless compatibility

with Zwift and Kinomap, every ride becomes an adventure.

With an intuitive LED dial interface, the bike relays live performance feedback on key training metrics, allowing you to monitor and control each workout with simple twist controls to fine-tune your ride mid-session. Plus, an integrated adjustable tablet holder provides the perfect viewing angle for your workouts, making it easier to follow your favourite classes or training sessions.

Designed for comfort and convenience, the bike's dual-adjustable padded saddle and soft-touch handlebars ensure a perfect fit, no matter your riding style. The self-levelling pedals with adjustable straps provide locked-in performance, while built-in water bottle holders keep you hydrated throughout.

- Create low-impact workouts to suit any goal - from recovery sessions to high-intensity cardio
