

IRONMASTER QUICK-LOCK ADJUSTABLE KETTLEBELL HANDLE 12.5

SKU: IM-1051

PRODUCT DESCRIPTION

Our new and lighter Quick-Lock Adjustable Kettlebell Handle is a great accessory to expand the capabilities of our adjustable dumbbells. You asked for a lighter version of our original adjustable kettlebell and we listened.

This adjustable kettlebell saves you a lot of space and money as you only need one rather than a selection of different sizes. It's fully compatible with Ironmaster Quick-Lock Dumbbell weight plates and locking screws, so can be added to your dumbbell set or can be paired with the Kettlebell weight kits.

The Ironmaster Quick-Lock Adjustable Kettlebell Handle 12.5 Features:

- Uses the same weight plates and locking screws as the Ironmaster Quick-Lock Dumbbells
 - QLKB empty handle weight: 12.5 lbs / 5.6kg
- Weight range using the QLDB standard locking screw 12.5 lbs - 47.5 lbs / 5.6kg - 21.5kg
- Weight range using the QLDB Add-on Kit locking screw 47.5 lbs - 70 lbs / 21.5kg - 31.7kg
 - Adjustable in 2.5 lbs / 1.2kg increments
 - Grip diameter: 1.2" / 3cm
- Dimensions: 8.75" / 22.2cm wide x 7.75" / 19.7cm tall for the empty handle. 11.5" / 29.2cm tall at 47.5 lbs / 21.5kg, 13.75" / 34.9cm tall at 70 lbs / 31.7kg.
 - Super durability with a limited lifetime warranty.
