VORTEC P-10M MAGNETIC COMMERCIAL SPIN BIKE

SKU: P10M

P-10MRH

16 Resistance Level

PRODUCT
DESCRIPTION

A BEAUTIFUL SPIN BIKE DESIGN WITH INNOVATION MAGNETIC DEVICE, PROVIDE A QUIET AND SMOOTH RIDE

01 "QUICK LEVER" RESISTANCE CONTROL

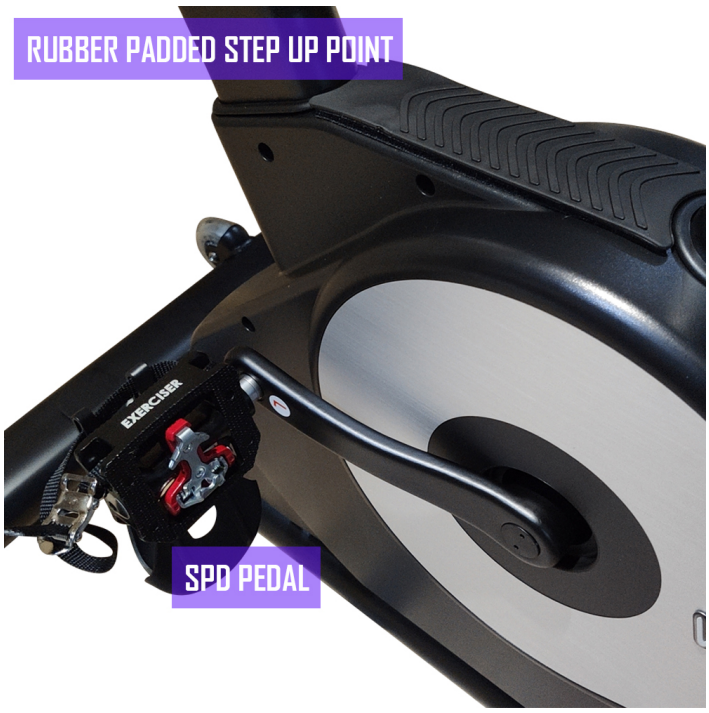
With 16 digitally monitored resistance levels you can adjust your workout with ease and precision. The "quick lever" adjuster allows instant resistance change for your Hiit (high intensity interval training)

Multi Grip handlebar provides many style of riding. Enhanced with tablet holder for online classes / entertainment

02 REAR WHEEL MAGNETIC DRIVE SYSTEM

Perform your most intense HIIT workouts without the worry of dropping sweat on the working parts. Vortec have specially designed the P10M to protect its moving parts for salty acidic sweat, therefore furthering the life span of your fitness investment.

With no need to replace worn friction pads, the silent frictionless magnetic resistance system will perform flawlessly for the lifetime of your spin bike. Equipped with a direct drive Kevlar belt the P10M delivers a truly unique and unrivalled exercise experience.



03 QUICK-RELEASE SYSTEM, EASY RIDE EASY USE AND EASY STOP

Quick release 4 way adjustable seat height and extender with number scale. Easy to use and with an easy to read number scale you can customise your perfect seat position with minimum fuss. Access your dumbbell easily from behind your seat

04 DUAL SPD / CAGE PEDAL

The pedals are specially designed for spinning bicycles. Sturdy materials, super heavy provides smooth riding with sealed bearings. Compatible with major SPD shoes

Commercial Grade Cast Iron Flywheel

Maintain a smooth and steady cadence for a better workout

Our commercial quality, heavy flywheel replicates the momentum you get on a real bike, you'll feel just like you're cycling on the road, with smooth pedal strokes and a consistent cadence.

Magnetic Resistance

Experience smooth, quiet and maintenance free resistance

Replicate riding up-hill and reach your fitness goals faster by increasing the resistance at the turn of a dial.
Our magnetic resistance system delivers great resistance for high intensity cardiovascular workouts:

Maintenance Free Resistance System - Unlike mechanical resistance spin bikes, magnets have an extremely long lifetime.
Silent Resistance - No friction means no noise will be generated.
Smooth Pedalling - With no friction and highly consistent magnetic forces, pedalling will be smooth and predictable.

Fore and Aft Adjustability

Get the right fit for your body

With adjustable handlebar and saddle positions, you'll find a comfortable riding position no matter what size or shape you are. Suits riders up to 200cm tall.

Commercial Steel Frame

Strong frames that will last

Commercial based Tubular Steel Frame
Super sturdy to minimize frame wobble/shimmy during hard sprints; hill climbs
Correct ergonomic frame sizing allows proper road bike simulation & training
Max weight of 145kg

Multifunction LCD Display

Keep track of your workout programs

To keep track of your progress, this spin bike features a large LCD display to keep track of your workout progress with measurements such as calories, distance, odometer, pulse, speed, time and cadence (RPM).

IMPORTANT: Resistance level is shown on the display as you adjust!

Features:

RESISTANCE	Dual functions design with magnetic system , lever control resistance force accompany with stop function.
CRANK	Hi-carbon steel with 4 spider arm ultra- strong design, 14.8 retro –fit
PEDALS	5/8" axle alloy body w/toe clip and strap
SEAT ADJUSTMENTS	High performance seat position adjustment devices with alloy "D" shape tube design in high locking efficiency, post & top/bottom slider both with number scale. 4 way adjustable-seat height and extender.
SIZE ADJUSTMENTS	Specially designed "V-lock"system makes easy adjustment and more secure.
FLY WHEEL	Precision machined Alloy fly wheel. Fixed wheel. SKF over size industrial bearing.
CONSOLE TYPE	LCD Console – P-10M 12 programs /16 lever console workout performance.
HAND PULSE	Wireless heart rate belt
PORTABLITY	Front transport wheels
OTHER FEATURES	Bottle cage, Wireless chest belt for heart rate measurement. Low maintenance. Easy assembly.
DIMENSIONS	L110cm x W60cm x H110cm
MAXIMUM USER WEIGHT	150kg

ADDITIONAL INFORMATION

More Information

Level Of Resistance	16 Levels Lever Adjustment
Flywheel Weight	14kg Calibrated Flywheel
Warranty	1 Year
Product Dimension	L110cm x W60cm x H110cm
Max Load	150kg
Product Weight	60kg
More Information	Magnetic resistance, Wireless console, Total silence
