

IRONMASTER QUICK-LOCK KETTLEBELL

SKU: IM-1050-1009-2

PRODUCT DESCRIPTION

Ironmaster's patented quick-lock adjustable kettlebell handle design is still unrivaled in form and function today. You will not believe how quick and easy this adjustable kettlebell system is to use until you have it in your hands. A product of extensive research and development, our quick-lock kettlebell system is ergonomically designed with a locking screw that will not interfere with your grip and with a handle that looks and feels exactly like a traditional kettlebell. This is all done without compromising quality and durability.

The quick-lock adjustable handle weighs in at 22.5 lbs empty and can be adjusted from 22.5 lbs to 57.5 lbs in 2.5 lb increments. Combine our adjustable kettlebell handle with our adjustable dumbbells to expand the versatility of your home gym in the most space-friendly way possible. The included weights can be used with our adjustable dumbbells as well.

Combo system with quick-lock allows for easy weight adjustment to maximize your weight training routine. Kettlebell fully loaded to 57.5 lbs is 11.5" tall. Includes 1 each Kettlebell handle and the standard locking screw. Weights not included.
