

# NORDICTRACK COMMERCIAL 2450 TREADMILL

SKU: C2450

PRODUCT DESCRIPTION

# NO.1 USA SELLING BRANDS

**Men's Health** **POPULAR SCIENCE**  
**SHAPE RUNNERS'**

The new Commercial 2450 surpasses the old model with several exciting features, including an impressive 10-inch, Web-enabled touchscreen, an adjustable tablet holder, and a noise-reducing WhisperQuiet™ durable design. Together with premium entertainment options, an extra-wide tread belt, adjustable cushioning, incline and decline training, and a powerful, 4.0 continuous horsepower motor, you'll have what you need to stay motivated for your workout.

## 01 4.0 CHP DurX™ COMMERCIAL MOTOR

Train safer, longer and quieter. Built with a bigger motor case for less vibration and dual cooling fans for less heat, this 4.0 continuous horsepower DurX™ Commercial Pro motor delivers lasting power that's smooth and even. Every NordicTrack motor features high-grade insulation and a built-in grounding brush to protect the motor and make it run longer.

## 02 ONETOUCH™ CONTROLS

Quick, responsive controls adjust your speed and incline in seconds at the touch of a button. Keep your focus on your workout, instead of scrolling through options.

### 03 10" WEB-ENABLED COLOR TOUCHSCREEN SEE MOTIVATION IN COLOR

Workout stats, training programs and even your favorite websites enrich your fitness experience on the NordicTrack Commercial 2450 treadmill's integrated 10-inch Web-enabled color touchscreen. This display goes beyond counting calories and miles; it delivers motivation that counts.

### 04 INTEGRATED ACCESSORY TRAY

Keep your remote, towel and other items close at hand with a convenient accessory tray stationed between the uprights.

### 05 RUNNERSFLEX CUSHIONING FIRM OR SOFT DECK - YOU DECIDE

Runners Flex™ cushioning gives you choice. Turn it on for superb impact absorption and joint comfort. Or, turn it off for a solid deck that locks out cushioning dampeners to feel more like running on the road. In the "on" position, the treadmill features full-deck cushioning with spring-encased dampeners at six points across the frame that absorbs the shock of every step to reduce impact.

### 06 -3 to 15% INCLINE & DECLINE TRAINING REAL-LIFE UPS & DOWNS

Real-world terrain has ups and downs, and so should your treadmill. This treadmill features a deck that inclines up to 15%. Your heart rate response and muscle recruitment increases with your incline, while lowering the impact on your knees and ankles. The deck declines as much as 3% to recruit different leg muscles, helping you target and tone your lower body in a totally different way.

## 07 55 X 152 CM TREAD BELT

This 2-ply belt is specifically designed to reduce noise and friction for a quieter workout and longer lasting product. It's stretch resistant and engineered to stay centered on the deck. The material of the belt is permeated with a proprietary lubricant that increases the performance and longevity of the drive system, and helps the belt and rollers last longer with less maintenance.

## 08 TRIPLE AUTOBREEZE™ WORKOUT FANS

Stay cool with three oversized fans—two upper fans on the console and a lower fan integrated into the accessory tray. You can manually adjust fans' speed, or set them to automatically adjust to match your workout intensity.

## 09 DUAL-GRIP EKG™ HEART RATE MONITOR

Stay in your target heart rate zone for maximum results! Built-in heart rate sensors help you monitor your heart rate throughout your workout. You'll stay on track for better, faster results!

## 10 WIRELESS CHEST PULSE STRAP

Maximize your results with heart rate training. The included wireless chest strap sends a continuous reading to the display so you stay in the right training zone for better, faster results.

## 11 SPACESAVER® DESIGN

Innovative technology helps you lift and fold the deck up and out of the way.

## 12 40 BUILT-IN WORKOUT APPS

Get the training you want with built-in workouts designed by a certified personal trainer to help you reach your fitness goals. Choose from calorie, heart rate control, incline and speed workout programs.

## 13 INTERMIX ACOUSTICS® 3.0 EQ SOUND SYSTEM

Enjoy rich, powerful performance with this built-in sound system, featuring 3" high-excursion drivers—delivering incredible clarity, while reproducing a sweeping range of audio frequencies.

## 14 1-22 KM/H SPEED

Walk, jog or run — the NordicTrack 1750 treadmill accommodates every workout with speeds up to 22 km/h. Adjust your speed at the touch of a button.

## 15 2.5" ROLLER

To create the 2.5-inch rear roller on the NordicTrack Commercial 1750, we started with the highest-quality, aircraft-spec bearings, which are sealed inside roller housings, crafted of high-tolerance, machined steel. The roller is then dynamically balanced in two planes, giving it the smoothest, quietest and longest performance possible.

## 16 ADJUSTABLE TABLET HOLDER

The new and improved tablet holder adjusts to your preferred viewing angle. Fixed to the back of the machine so it doesn't interfere with your workout, the tablet holder allows you to enjoy your favorite shows, music, and movies while you work out. Tablet not included.

### About NordicTrack

NordicTrack is the most popular brand of fitness equipment in the world. It is sold in more than 70

countries in the world. Several reputable outlets have many good things to say about NordicTrack fitness equipment. Foremost among them is Runner's World, one of the largest communities of runners online.

NordicTrack is owned by Icon Health & Fitness, a company located in Logan, Utah. Icon Fitness is the largest manufacturer of fitness equipment in the world and owns other popular brands such as Proform, FreeMotion and Gold's Gym.

## Pricing

Why is there a big price gap between equipment sold in USA and Singapore?

Being their Singapore distributor, we are subjected to a higher price when we bring in the products. This is the reason why our prices are closer compared to other countries like Canada, UK, Australia.

However, we offer Free Assembly which is a value added service which no other NordicTrack agents provide.

## Research and Development

**NordicTrack's mission is to be the world leader in home fitness equipment!**

To achieve this goal, over \$15 million dollars are invested in research and development each year, more than any other home fitness equipment manufacturer.

What makes NordicTracks products unique? Innovation and Technology.

Combined with over 25 years experience in listening to the consumer and feeding new ideas to the development team, NordicTrack products stand out amongst the competition with advanced features and ergonomics.

Our products come to life from a concept or idea from our US design team. From a simple diagram, samples are produced and then undergo further development in conjunction with professional personal trainers like Jillian Michales, coach from TV's The Biggest Loser.

The final phase is incorporates both real life and mechanical testing to ensure the products are sturdy, intuitive and comfortable to bring you the results and quality you expect.

NordicTrack continues to refine and improve their products to ensure that they are always at the forefront of innovation, allowing NordicTrack to consolidate its position as leader in the fitness market.
