

HORIZON FITNESS MAT

SKU: MF-21

PRODUCT DESCRIPTION

Features:

- 200 x 90 x 0.6cm
 - 3.3KG
- Made from durable, shock absorbing vinyl material
 - Protect floors from damage
- Reduces noise and vibration from equipment
 - Easy to maintain and clean

Benefits when using it for Treadmill:

The mat will absorb the vibration from your machine. Otherwise, the vibrations hit the ground and reverberate back into the treadmill causing damage that adds up over time shortening the life of your treadmill.

Some people think regular carpeting will take place of the treadmill mat. In truth, the carpet is another reason to get a mat. While the machine is in use, carpet fibers along with other junk from the floor float around just waiting to get into the mechanics of your treadmill. Also, as with most motorized machines, there will be some grime from the treadmill that will inevitably end up in your carpet or on your floor and a treadmill mat is so much cheaper to collect grime than the carpet.
