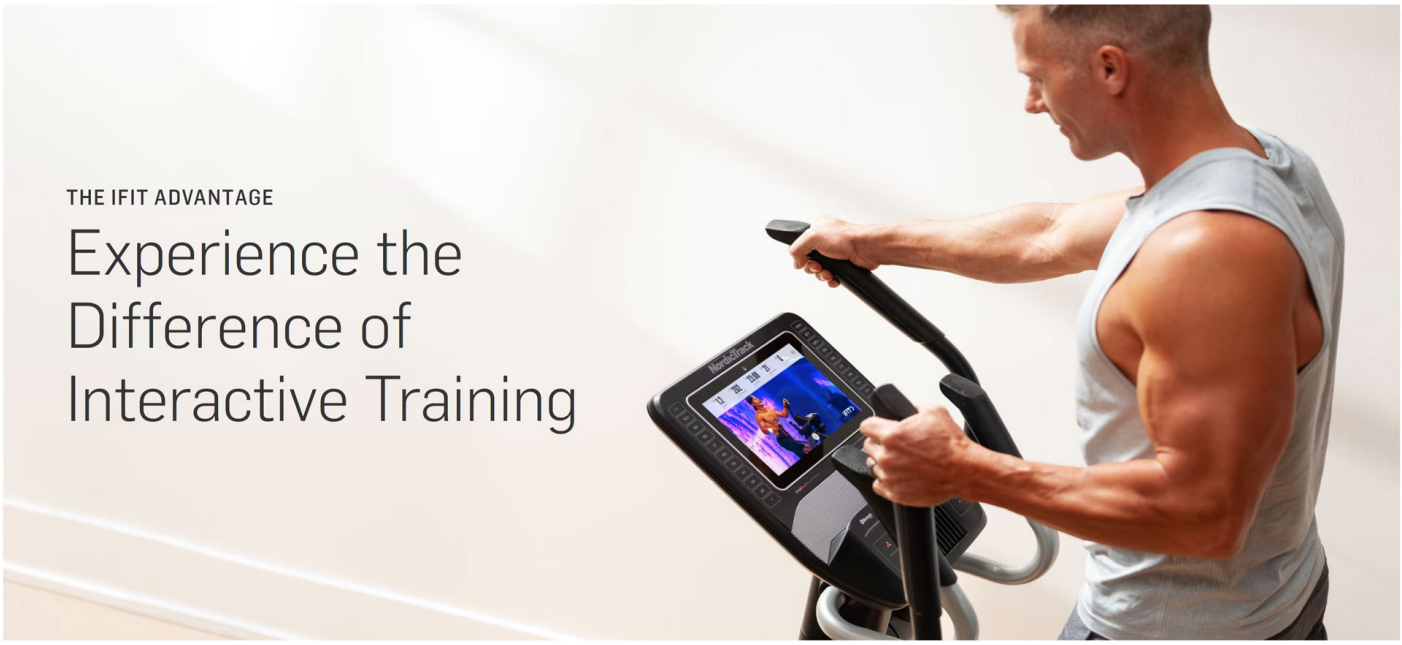
NORDICTRACK SPACESAVER SE7I ELLIPTICAL CROSS TRAINER

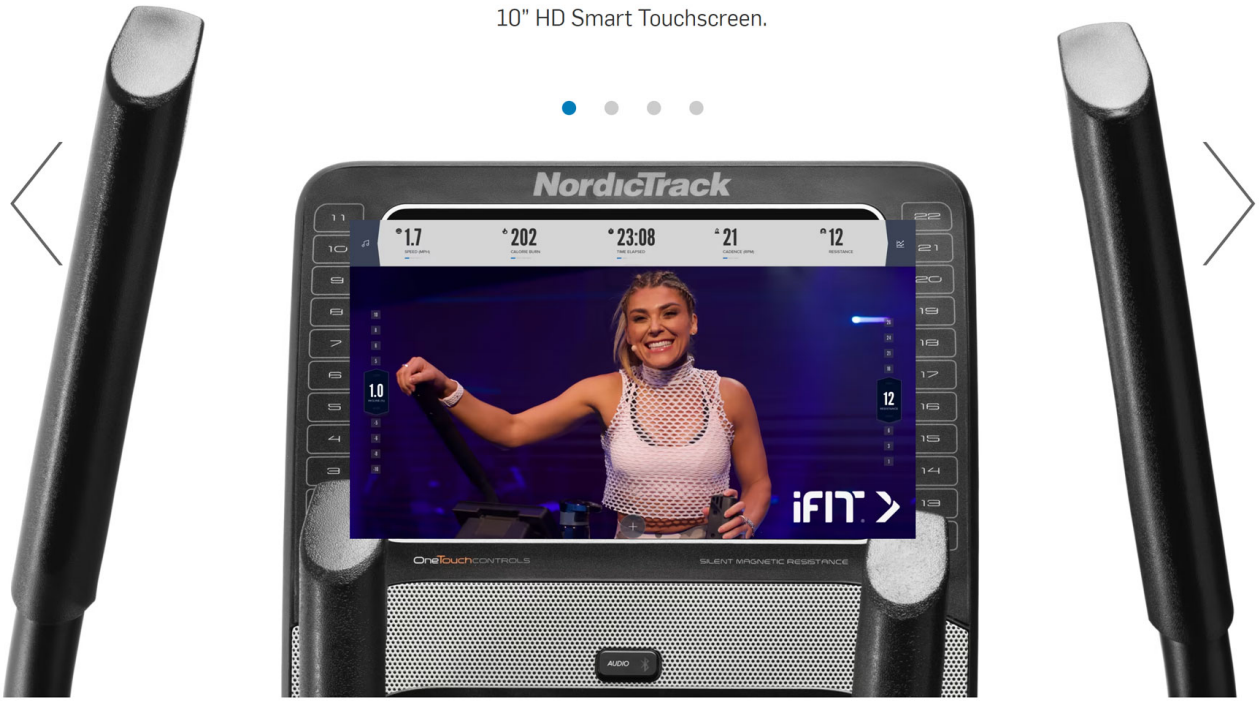
SKU: NTEL99421-INT

PRODUCT
DESCRIPTION

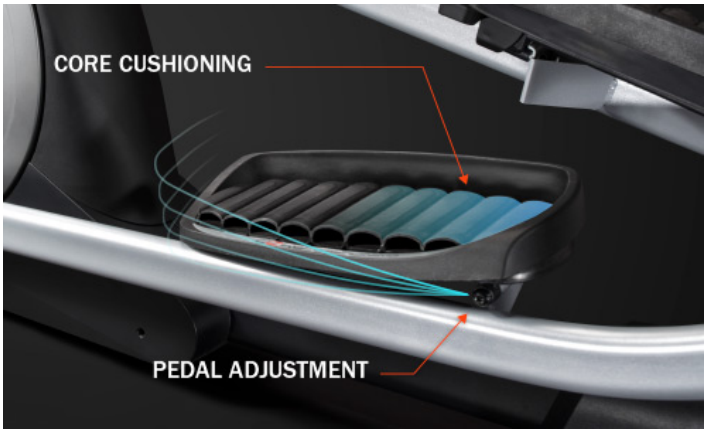


WORKOUT ON-DEMAND

With your iFIT membership, you can stream thousands of workouts, led by world-class trainers, on the SpaceSaver SE7i's 10" HD Smart Touchscreen.



Shed the pounds and sculpt your muscles while using the durable steel construction and effective flywheel of the SpaceSaver® SE7i elliptical. With its vertical SpaceSaver® design, you can conveniently store your elliptical anywhere.



01 FIND YOUR STRIDE

Perfect for any foot size, the adjustable oversized pedals provide comfort and traction throughout your workout so you can have a more natural stride.

02 EASY STORAGE AFTER YOUR INTENSE WORKOUT

After your workout, store your elliptical and save space using the convenient SpaceSaver design and rear mounted transport wheels. It’s so compact that you can store it in a closet or any corner of your home.

03 PERFECT PEDAL PROPORTION

With design guided by ergonomics, the distance between the pedals, the "Q Factor," on this rear drive elliptical is the same as a front drive elliptical. The perfect number is derived from the natural stride pattern and average pelvic width of adult humans. Oversized pedals allow you to move your feet apart or closer together without compromising stability, so you can customize your stride optimal comfort.

04 18" STRIDE LENGTH

Take long, full strides at any pace to burn calories and develop lean muscle.

05 22 DIGITAL RESISTANCE LEVELS

Quick, responsive, OneTouch™ controls adjust your resistance to burn more calories. With SMR™ Silent Magnetic Resistance, every adjustment is quiet, smooth and natural.

06 8 KG EFFECTIVE INERTIA ENHANCED FLYWHEEL

Engineered for incredibly smooth performance, this 8 kg effective inertia-enhanced flywheel delivers a more natural ride. It's neither too heavy nor too light, so it rotates with smoothness, but still has adequate resistance to complement your stride.

07 AUTOBREEZE™ WORKOUT FAN

Stay cool and comfortable with the oversized fan that automatically adjusts its speed to match the speed of your workout. It's located at the front of the console, close to your body, so you can feel its cooling effects.

08 ADJUSTABLE OVERSIZED PEDALS

Now you can optimize muscle toning when you choose from three adjustment options to customize your toe-to-heel angle, all while maintaining great traction control for stable, relaxed movement. The space between the pedals is based on average human pelvic width and natural stride patterns for superior comfort.

Compatible with bluetooth heart rate belt

Dual Bluetooth® 2" Speakers

10" Full Color Touchscreen Display

Non-slip and adjustable pedals

SpaceSaver® Design

Transport Wheels

ABOUT NORDICTRACK

NordicTrack is the most popular brand of fitness equipment in the world. It is sold in more than 70 countries in the world. Several reputable outlets have many good things to say about NordicTrack fitness equipment. Foremost among them is Runner's World, one of the largest communities of runners online.

NordicTrack is owned by Icon Health & Fitness, a company located in Logan, Utah. Icon Fitness is the largest manufacturer of fitness equipment in the world and owns other popular brands such as Proform, FreeMotion and Gold's Gym.

PRICING

Why is there a big price gap between equipment sold in USA and Singapore?

Being their Singapore distributor, we are subjected to a higher price when we bring in the products. This is the reason why our prices are closer compared to other countries like Canada, UK, Australia.

However, we offer Free Assembly which is a value added service which no other NordicTrack agents provide.

RESEARCH AND DEVELOPMENT

NordicTrack's mission is to be the world leader in home fitness equipment!

To achieve this goal, over $15 million dollars are invested in research and development each year, more than any other home fitness equipment manufacturer.

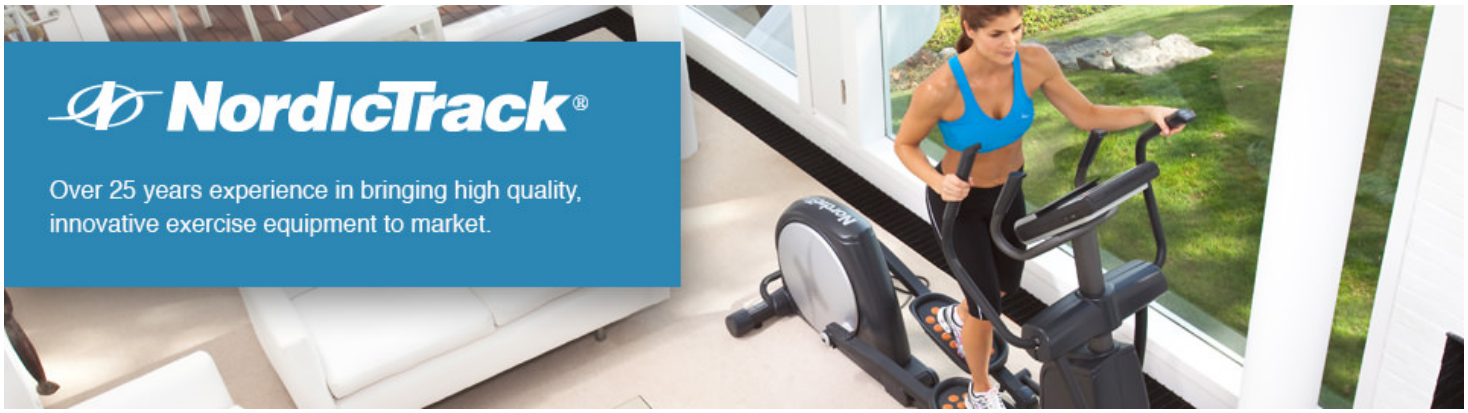
What makes NordicTracks products unique? Innovation and Technology.

Combined with over 25 years experience in listening to the consumer and feeding new ideas to the development team, NordicTrack products stand out amongst the competition with advanced features and ergonomics.

Our products come to life from a concept or idea from our US design team. From a simple diagram, samples are produced and then undergo further development in conjunction with professional personal trainers like Jillian Michales, coach from TV's The Biggest Loser.

The final phase is incorporates both real life and mechanical testing to ensure the products are sturdy, intuitive and comfirtable to bring you the results and quality you expect.

NordicTrack continues to refine and improve their products to ensure that they are always at the forefront of innovation, allowing NordicTrack to consolidate its position as leader in the fitness market.



ADDITIONAL INFORMATION

	More Information
Crank Arm / Stride Length	18" Stride
Warranty	Mainframe: Lifetime, Other parts: 1 Year
Other Features	Vertical Space Saver Design
Packaging	198 x 46 x 81cm (98kg)
Level Of Resistance	22 Digital Resistance Levels
Product Dimension	203 x 81 x 170cm, Folded: 94 x 81 x 203cm
Max Load	147kg
Product Weight	85kg
Incline	N.A.
