

VIGOR COLOURED COMPETITION PRO KETTLEBELL

SKU: 1010

PRODUCT
DESCRIPTION

With uniform sizes throughout the range, the Competition Pro Kettlebell meets competition grade standards.

Engineered for every workout - A comfortable, rust-resistant, and anti-slip handle is permanently welded into a pressed and spun carbon steel bell.

Designed for serious kettlebell routines - The bell is weighted at the bottom, ensuring it moves quickly around the hand, wrist and arm making the Competition Pro Kettlebell ideal for anyone who takes their kettlebell training seriously.

Perfect for kettlebell sport (Girevoy) - The design lends itself to the two standard kettlebell sport lifts: the Snatch and the Clean & Jerk. The smooth, flat base means other exercises such as renegade rows and push-ups can also be performed confidently.

As stylish as they are functional - These are some of the best looking competition kettlebells on the market and will look great in any gym or studio. The bell is shot blasted, primed and painted for a durable finish, and they are colour coded for instant identification.
