NO.1 USA SELLING BRANDS

Men's Health **POPULAR SCIENCE**
SHAPE RUNNERS'

Take your training to new heights with the X9i Incline Trainer. Built with the features and reliability of a standard treadmill, this powerful training machine also features an amazing -6 to 40 percent incline range. Reflex cushioning absorbs the impact of every step, so you can run or walk with real-world ups and downs. Or, take on higher inclines to ramp up your intensity and burn five times the calories, just by walking. A full-color, web-enabled touchscreen delivers more than stats – go online to take your mind off your workout. Or, use the incline trainer's iFit® technology to choose a Google Maps™ workout and experience trails from around the world as your deck adjusts automatically to match the terrain.

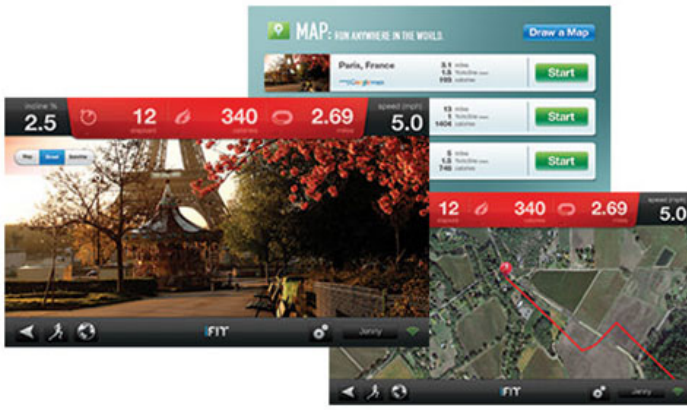

01 3.6 CHP DurX™ COMMERCIAL MOTOR

Train safer, longer and quieter. Built with a bigger motor case for less vibration and dual cooling fans for less heat, this 3.6 continuous horsepower DurX™ Commercial Pro motor delivers lasting power that's smooth and even. Every NordicTrack motor features high-grade insulation and a built-in grounding brush to protect the motor and make it run longer.

02 ONETOUCH™ CONTROLS

Quick, responsive controls adjust your speed and incline in seconds at the touch of a button. Keep your focus on your workout, instead of scrolling through options.

03 7" COLOR TOUCHSCREEN SEE MOTIVATION IN COLOR

Workout stats, training programs and even your favorite websites enrich your fitness experience on the NordicTrack x9i integrated 7-inch color touchscreen. This display goes beyond counting calories and miles; it delivers motivation that counts.

04 INDUSTRY-LEADING INCLINE / DECLINE

With up to 40% incline, you'll burn up to 5x the fat calories just by walking! Plus, you'll recruit more muscle targeting your hips, quads and glutes. And to perfect your cadence and strengthen your legs for the downhill segments of your next marathon or 10K, the 6% decline adds variety and realistic training to your program. Integrated with iFit Technology, the X9i recreates any trail in the world!

**REFLEX
CUSHION
TECHNOLOGY**

05 REFLEX CUSHIONING

Extending nearly the entire length of the deck, Reflex™ cushioning absorbs impact to help reduce stress on your joints and back. Two isolators cushion at heel strike and maintain strength and stability at toe off.

06 DUAL AUTOBREEZE™ WORKOUT FANS

Stay cool with three oversized fans—two upper fans on the console and a lower fan integrated into the accessory tray. You can manually adjust fans' speed, or set them to automatically adjust to match your workout intensity.

07 55 X 152 CM TREAD BELT

This 2-ply belt is specifically designed to reduce noise and friction for a quieter workout and longer lasting product. It's stretch resistant and engineered to stay centered on the deck. The material of the belt is permeated with a proprietary lubricant that increases the performance and longevity of the drive system, and helps the belt and rollers last longer with less maintenance.

08 HEART RATE MONITORING

Track your progress and increase your performance with the included Polar® T34 Wireless Chest Pulse Strap. You'll stay in the right training zone for increased speed. A continuous reading is displayed on the touch screen via the included strap and two handlebar grips are built-in for intermittent readings.

09 1-20 KM/H SPEED

Walk, jog or run — the NordicTrack 1750 treadmill accommodates every workout with speeds up to 20 km/h. Adjust your speed at the touch of a button.

10 2.5" ROLLER

To create the 2.5-inch rear roller on the NordicTrack X9i, we started with the highest-quality, aircraft-spec bearings, which are sealed inside roller housings, crafted of high-tolerance, machined steel. The roller is then dynamically balanced in two planes, giving it the smoothest, quietest and longest performance possible.

ABOUT NORDICTRACK

NordicTrack is the most popular brand of fitness equipment in the world. It is sold in more than 70 countries in the world. Several reputable outlets have many good things to say about NordicTrack fitness equipment. Foremost among them is Runner's World, one of the largest communities of runners online.

NordicTrack is owned by Icon Health & Fitness, a company located in Logan, Utah. Icon Fitness is the largest manufacturer of fitness equipment in the world and owns other popular brands such as Proform, FreeMotion and Gold's Gym.

PRICING

Why is there a big price gap between equipment sold in USA and Singapore?

Being their Singapore distributor, we are subjected to a higher price when we bring in the products. This is the reason why our prices are closer compared to other countries like Canada, UK, Australia.

However, we offer Free Assembly which is a value added service which no other NordicTrack agents provide.

RESEARCH AND DEVELOPMENT

NordicTrack's mission is to be the world leader in home fitness equipment!

To achieve this goal, over \$15 million dollars are invested in research and development each year, more than any other home fitness equipment manufacturer.

What makes NordicTracks products unique? Innovation and Technology.

Combined with over 25 years experience in listening to the consumer and feeding new ideas to the development team, NordicTrack products stand out amongst the competition with advanced features and ergonomics.

Our products come to life from a concept or idea from our US design team. From a simple diagram, samples are produced and then undergo further development in conjunction with professional personal trainers like Jillian Michales, coach from TV's The Biggest Loser.

The final phase is incorporates both real life and mechanical testing to ensure the products are sturdy, intuitive and comfortable to bring you the results and quality you expect.

NordicTrack continues to refine and improve their products to ensure that they are always at the forefront of innovation, allowing NordicTrack to consolidate its position as leader in the fitness market.
