

SHUA V6 COMMERCIAL TREADMILL

SKU: SH-T860

PRODUCT
DESCRIPTION

Shua V6 Treadmill is a new model to replace the X9. Although it uses a smaller motor, but the capabilities are enough to support full commercial use, and the overall price is more attractive as well.

Z-DEIGN STABLE STRUCTURE

DETAILS

Ergonomics interface

New angle design enhances the visual experience for people at different heights, and helps user keep the right position.

Handlebar design

PU foaming handlebar is comfortable and high-end, and its length is professionally designed.

Comfortable, safe and durable running deck

Wider and longer running surface is more durable than ever. To ensure the long and smooth running experience, SH-T5921 treadmill adopts anti-static, anti-abrasive, anti-slip and thicker running belt. High intensive and dense, anti-abrasive running composite deck with top cushioning silica gel pad, delivers a low impact design.

Powerful Motor (F Level)

F-level motor offers continuous power. Compared to other motors, it saves more energy and reduces more carbon emission.

Frequency Inverter

SHUA SH-T5921 treadmill adopts "Rhymebus" inverter from Taiwan, which is a leading inverter company in this industry. This inverter provides a stable performance for the treadmill.

ADDITIONAL
INFORMATION
