ABOUT NORDICTRACK

NordicTrack is the most popular brand of fitness equipment in the world. It is sold in more than 70 countries in the world. Several reputable outlets have many good things to say about NordicTrack fitness equipment. Foremost among them is Runner's World, one of the largest communities of runners online.

NordicTrack is owned by Icon Health & Fitness, a company located in Logan, Utah. Icon Fitness is the largest manufacturer of fitness equipment in the world and owns other popular brands such as Proform, FreeMotion and Gold's Gym.

PRICING

Why is there a big price gap between equipment sold in USA and Singapore?

Being their Singapore distributor, we are subjected to a higher price when we bring in the products. This is the reason why our prices are closer compared to other countries like Canada, UK, Australia.

However, we offer Free Assembly which is a value added service which no other NordicTrack agents provide.

RESEARCH AND DEVELOPMENT

NordicTrack's mission is to be the world leader in home fitness equipment!

To achieve this goal, over \$15 million dollars are invested in research and development each year, more than any other home fitness equipment manufacturer.

What makes NordicTracks products unique? Innovation and Technology.

Combined with over 25 years experience in listening to the consumer and feeding new ideas to the development team, NordicTrack products stand out amongst the competition with advanced features and ergonomics.

Our products come to life from a concept or idea from our US design team. From a simple diagram, samples are produced and then undergo further development in conjunction with professional personal trainers like Jillian Michales, coach from TV's The Biggest Loser.

The final phase is incorporates both real life and mechanical testing to ensure the products are sturdy, intuitive and comfortable to bring you the results and quality you expect.

NordicTrack continues to refine and improve their products to ensure that they are always at the forefront of innovation, allowing NordicTrack to consolidate its position as leader in the fitness market.
