

HORIZON FITNESS ANDES 3 FOLDING ELLIPTICAL (DISPLAY SET)

SKU: ANDES-3-03

**SIXSTAR FRAME**

Move the way you were intended to move thanks to the exclusive SixStar frame that promotes ideal body positioning and a natural path of motion

**FEATHERLIGHT
FOLDING****FEATHERLIGHT
FOLDING**

Our one-step hydraulic system does all the heavy lifting as it gently lowers your treadmill deck when you're ready to use it and effortlessly raises it when you're done.

**ENERGYSAVER
MODE****ENERGY SAVER
MODE**

Conserve electricity with our Energy Saver feature, which puts the console in sleep mode if it is inactive for 15 minutes

RECLAIM YOUR LIVING SPACE
WITH **COMPACT,
FOLDING
ELLIPTICALS**

This revolutionary folding frame makes it easy to stow your elliptical between workouts. Gently raise the platform and the hydraulic FeatherLight system kicks in to do the lifting.

Enjoy all the durability and natural feel of a front-drive elliptical thanks to this patented, rear-folding design. Only available on Andes ellipticals from Horizon Fitness.

Get peace of mind with a lifetime frame warranty on all Horizon ellipticals.

Horizon Andes 3 with SixStar frame

The elliptical cross trainer Andes 3 of Horizon is equipped with the frame system SixStar. Six stars for a very high training comfort. Due to this frame construction, the **Horizon elliptical cross trainer Andes 3** offers a **very low pedal space (Q-factor)** as well as a **flat, elliptic movement**. It guarantees a natural running experience. The **upright posture** guarantees better training results. The **Horizon elliptical cross trainer Andes 3** is very easy to use even for persons with limited mobility thanks to its very low **access height of just 27 cm**. The **drive system is perfectly adapted**, thus the training is very silent and smooth.

The stride length of 50.8 cm is very big and even persons with a height of 200 cm can exercise with the Horizon elliptical cross trainer Andes 3!

FeatherLight folding mechanism

The Horizon elliptical cross trainer is sufficiently stable and can be loaded up to 136 kg. Thanks to the very easy folding mechanism, the Horizon elliptical cross trainer Andes 3 can be comfortably folded after the training. Use the integrated transport wheels to move easily the elliptical cross trainer.

LCD display and practical training programs

The 5.5 inches big display of the Horizon Andes 3 is quite readable and offers a very smart feature, the HR wheel. It shows in detail in which pulse zone you are at the moment. Vary your training intensity in order to get the most efficient training.

10 training programs offer 16 resistance levels each. It can be easily adjusted to your training progress. It's just the Watt mode where you set a constant load. The Horizon elliptical cross trainer Andes 3 offers a good range of rehabilitation to intensive fitness training with resistances from 25 to 350 Watt.
